MGM INDUSTRIES ACQUIRES ASSETS FROM ECHO WINDOWS

HENDERSONVILLE, TENN. - MGM Industries, Inc. has entered into an agreement with the management of Echo Windows, LLC, in Red Oak, Iowa, to purchase inventories and equipment necessary to build the Sienna replacement window product line, according to Joe Gaskins, vice president of sales.

MGM Industries will assume the trade name Sienna and has agreed to assume the warranty issues of Echo Windows for these lines, for four years beginning February 27, 2009 and for four years prior to this date. This excludes Echo's P2 product which is not included in the purchase.

According to Gaskins, former Echo customers can be assured that their warranties will be honored.

"We understand the importance of upholding existing warranties and we want to reassure those customers that we will honor those warranties and provide them with the best customer service we can provide," said Gaskins.

Customers are encouraged to call Gaskins at MGM Industries at 1-800-476-5584 with any questions.

The equipment will be moved to MGM's 400,000 square foot Hendersonville, Tenn. plant, this week, where production will begin immediately.

MGM Industries started offering a replacement window in 1985. The addition of the Sienna replacement product line will further enhance its offerings to dealers and distributors in the retrofit market.

Owners of the company have been exploring opportunities focused on the replacement market for the last four months.

"The Sienna line is a proven product in the market that has been very successful in regard to market penetration and fits perfectly with our long range goals and objectives," stated Gaskins.

Founded in 1965, in Hendersonville, Tenn., MGM Industries extrudes and assembles a wide range of custom and standard sized vinyl windows, sliding patio and swing doors for new home construction and replacement use. Still a family owned business, MGM employs 150 people. For more information visit them online at www.MgmIndustries.com.
