

Three Vinyl Product Brands – One Quality Vinyl Manufacturer

For over 40 years, MGM Industries, Inc., in Hendersonville, Tennessee, has been producing quality uPVC vinyl windows and doors for new construction, replacement and architectural applications. With over 400,000 square feet of manufacturing facilities and eight lines of extrusion, they produce both standard size and custom built PVC vinyl windows and doors. And thanks to advancements in paint and vacuum coating technology, MGM offers their customers a variety painted vinyl products. MGM manufactures these vinyl products in three brands: [Southern Rose New Construction Vinyl Windows & Doors](#), [Sienna Replacement Vinyl Windows & Doors](#) and [WindStrong Architectural](#) Windows & Doors.

Southern Rose New Construction products are designed for energy efficiency, easy installation and sleek sight lines that appeal to homeowners. [Southern Rose New Construction Windows & Doors](#) offer a variety of options for all budgets, including single hung, double hung, casement and custom built windows as well as sliding and swing glass doors. With special features such as, a brick mould, insulated glass, an aluminum nail fin and J channel, Southern Rose is the preferred window for builders and contractors.

Sienna Replacement Vinyl Windows & Doors are designed for builders and remodelers who need a replacement window that is easy to install and aesthetically pleasing. With Sienna, customers can choose between custom sized single hung, double hung and casement vinyl windows and sliding and swing vinyl doors. Our [4600 vinyl window series](#), for example, is our premium replacement window that has a 3-1/4" vinyl frame for easy wood window replacement, a sloped sill for water run off and 1" insulated glass.

In response to stringent coastal building codes, MGM's designers and engineers created the [WindStrong](#) Architectural line of products. After rigorous testing at our in-house testing facility and then passing impact tests through independent laboratories, MGM's WindStrong products provide the strength and security homeowners need as well as the beauty and style they desire. WindStrong windows and doors are strengthened by metal structural reinforcements, a secure locking system and reinforced glass.
