

Clearly the Right Choice

2013 Tax credit information

The Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2013 extends tax credits for energy-efficient windows and doors for 2013, but at lower levels than the previous two years. Homeowners may receive a tax credit for 10% of the cost of products (not including installation), up to \$500 but with a maximum of \$200 for windows and \$500 for doors. Homeowners cannot take the 2013 tax credit if they have already taken tax credits for energy-efficient products totaling \$500 or more for the tax years 2006 through 2010. IRS Notice 2009-53 sets forth the requirements for a Manufacturer's Certification Statement. Taxpayers may rely on this Statement that certain MGM windows and doors are Eligible Building Envelope Components. Taxpayers are not required to attach this Statement to their tax return. However, they should retain this Statement for their records.

Manufacturer :

MGM Industries; 287 Freehill Road, Hendersonville, TN 37075

The IRS provides guidelines for determining what energy-efficient improvements Qualify for the tax credit. MGM Industries has identified all MGM products that are eligible to qualify for the tax Credit.

Please refer to the charts on the following pages to help you determine if the MGM products you purchase are eligible for the 2013 tax credit.

For further clarification, MGM encourages homeowners to visit the IRS web site or consult with their tax consultants. Other qualifying factors, as well as additional information can also be found on ENERGY STAR's web site:
